ANTIOCH, ILLINOIS, THURSDAY, AUGUST 20, 1942

FIRST IN RESULTS TO ADVERTISERS

NUMBER 2

AWARD "MINUTE MAN" FLAG TO PICKARD INC. AND 80 EMPLOYEES

Hold Ceremony and Flag Raising at Plant Here Yesterday

At a ceremony held at 12:45 yesterday, a "Minute Man" flag was presented to Pickard, Inc., and their 80 employees for their achievement in attaining 100% co-operation in the country's war savings plan. The company is rated 100%, which means that 90% of the payroll of Pickard and company is pledged to purchase 10% of earnings in defense stamps and war bonds.

Present at the ceremony and making the presentation was Otto S. Klass, township chairman of war bonds and stamp sales, Mayor George B. Bartlett, and other Antioch citizens, who assembled with the 80 employees and executives of the company for the flag raising. Vincent F. Nedbal, office manager for Pickard, accepted the flag for the company and employees.

"America is at war," Chairman Klass said in a brief address to the Pickard employees and guests. "We can't all be in the front lines, in fact, our government wouldn't want us all there. Our home front fight is of vital importance; and it's the one place where we can serve and keep on serving. The most valuable service of government is maintaining the priceless heritage of freedom. No advantages of any other kind can compensate for the loss of this privilege."

Mayor Bartlett also commended the organization for its achievement in furthering the war effort.

Channel Lake Turns in Metal Scrap to Salvage Committee

Citizens Gather 3,750 lbs. Old Metal; Proceeds to Buy Defense Bonds

Neighbors in the vicinity of Channel Lake together with the efforts of W. H. Gifford, have gathered 3,750 pounds of scrap iron and disposed of it through the Antioch Salvage Committee.

The iron was picked up by the Sheehan Implement Company of Antioch and will be disposed of at a Kenosha junk yard.

Mr. Nick Zeien of the Channel Lake community said the money received will be invested in Victory bonds.

C. L. Kutil, chairman of the scrap drive said there will be a truck around to pick up iron on Saturday or Monday. People who have iron they wish picked up are to call Antioch 296.

Antioch is Host to County Legion

The Antioch American Legion Post was host last night at the district meeting of Legionnaires held in Episcopal church hall. The meeting was followed by a social gathering at Duke's place at Little Silver Lake.

Sugar Stamp No. 8 Good for 5 Pounds

Beginning August 23 sugar ration stamp No. 8 will be good for five pounds at any time before October 31, according to announcement just made by the Office of Price Administration. Stamp No. 7 gave the consumer only a two-pound bonus.

While not changing the basic ration of one half pound per person per week, the ruling will enable consumers to make purchases in larger units and facilitate the disposal of 5, 10 and 25 pound packages.

Packages in these sizes were put up before the start of rationing and processors have had difficulty in marketing any substantial part of them because ration stamps to date have been good for only one or two pound purchases. Unless this sugar is sold, the OPA said, it will have to be resacked, causing an "undesirable waste of labor and materials."

Soft Ball Team Plays in Lake Geneva Friday

After annexing two victories last week in their race in the Lake Geneva soft ball league, the Antioch team remained idle this week. Tomorrow night, however, they resume hostilities against the Pantorium team of Lake Geneva.

Antioch Drum and Bugle Corps to Play at Riverview Sunday

The Antioch Junior Drum and Bugle corps will march and play at Riverview park, Chicago, Sunday evening, according to arrangements just completed by Corps Manager Otto S. Klass.

Klass and 35 members of the corps will leave Antioch at 4 o'clock and will leave from Edison Court station, Waukegan, on the North Shore for Chicago at 4:58. Upon arrival in Chicago, a chartered street car will take them from Belmont avenue to Riverview. The return trip will start at 11 p. m.

Prays For Servicemen

The Most Rev. Archbishop Samuel A. Stritch, above, spiritual director of the Archdiocesan Union of Holy Name societies, will pray for all Chicago servicemen at the Holy Name Holy Hour, Sept. 13, in Soldier Field.

Commanders of the United States army, navy, marines, state militia, coast guard and air corps this week officially accepted invitations to participate in Holy Name Holy Hour at Soldier Field, Sept. 13, sponsored by the Archdiocesan Union of Holy Name societies.

Under the brilliant lights of the huge stadium, 1,200 servicemen from the six branches of the armed forces will move into a huge V formation, while Archbishop Stritch asks the 200,000 worshippers to pray for the safety of America's fighting men.

The military units will also form a living aisle through which 1,300 priests and church dignitaries are to march on their way to the shrine of victory and a just peace erected in the north end of Soldier Field.

Coach Wolfenbarger Calls First Grid Practice Session

1942 Squad Will Start from Scratch; 11 Grads Must Be Replaced

The first workout for candidates for the Antioch Township Football squad will be held next Tuesday afternoon, Coach C. A. Wolfenbarger announced today. That is the first day permitted for practice by the Northwest conference.

Antioch, champions of the Northwest conference last year, this year loses a whole football team, all letter men, through graduation last June, but this fact does not have the local grid coach worried. "We have a wealth of new material coming in, and indications are that an excellent team will represent Antioch this year," the coach told the News. The newcomers have been coached through past seasons by Coach Wolfenbarger and he feels that they will fit into the varsity outfit without having to learn, or unlearn any new grid tactics.

Grid stars lost to the team through graduation last June are: George Sterbenz, Jim Roepack, Ed Dunford and Bert Jordan, backfield men; Art Carpenter, center; Jack White and Bob Phillips, guards; Art Small, tackle; Leo Buchta, Jim Jones and Ed Jones, ends. White is now serving his country with the U. S. Marines, and Art Small is a member of the U. S. Air corps.

Jim Jones will be a freshman at the University of Illinois where he will specialize in agriculture.

All boys who wish to try out for the squad should report first to Dr. R. D. Williams, school physician, for a complete physical examination; and they are also required to submit the written consent of their parents or guardian before they will be permitted to play.

More Antioch Men Are Called For Military Service

North Chicago Board Lists 46 for Draft Quota for August 18

Listed among the 46 selectees called for induction this week by the North Chicago Draft board, Lake county dist. 3, are seven men from Antioch community.

They are: Alfred Anderson, Seward Rolla Shultz, Vernon Orville Bilstad, Rudolph Anthony List, Emil Philip Fisher, and Leonard Dale Schaffner, of Antioch; and Harry B. Swanson, Lake Villa.

Of the total of 263 August selectees from the three Lake county and two Waukegan draft boards, 31 were designated as 1-B m.c., or those with minor physical defects. They are scheduled for limited service.

It is reported that some of the men called for physical examinations have been rejected. It is probable that they will be re-examined and re-classified later.

Mrs. Margaret Haling Dies After Operation

Long a Resident of Grass Lake; Funeral Will Be Held Saturday

Funeral services for Mrs. Margaret Haling, 67, will be held Saturday afternoon at 2:30 o'clock at Strang's funeral home and burial will take place in Grass Lake cemetery.

Mrs. Haling died Tuesday afternoon in Victory Memorial hospital following an operation from which she was unable to recover. She had been in ill health for several months.

Born in Stuttgart, Germany, March 17, 1875, she came to America when 14 years old. For 31 years she lived in Chicago, coming to Antioch community 22 years ago. She was the wife of the late Charles F. Haling.

Mr. and Mrs. Haling established Haling's resort at Grass Lake, which they conducted until the business was turned over to their son, Charles, following the death of Mr. Haling about seven years ago.

She is survived by her son, Charles, daughters, Gertrude, Clara and Mrs. Alice Waldveiler, of Antioch; and daughter, Mrs. Irene Lehman, Chicago. She also leaves a brother, John G., Chicago, and four brothers in Germany. There are seven grandchildren.

Course in Nutrition is Made Available to Antioch Women

Twenty-hour Course Will Start Here in September

A course in nutrition, consisting of ten lessons of two hours each, will be made available to women of Antioch community starting in September, according to announcement made today by the Lake county Council of Defense.

With sugar already on a rationing basis and with the prospect of further rationing of other food products, special emphasis will be given to feeding the family in war time.

Women wishing to take the course should apply to Mrs. Vincent F. Nedbal, chairman of the Women's Auxiliary of Antioch Defense Council, or to Mrs. H. H. Perry, chairman Consumers Interest Division, Antioch township.

High School Students Register for Courses Today and Tomorrow

Prin. T. R. Birkhead of the Antioch Township High school, this week again urged that students expecting to attend the school the coming year should register today or tomorrow for the courses they desire to take. The office will be open until 9 o'clock tonight, and from 9 a. m. to 9 p. m. tomorrow, the principal said. In case a student cannot appear in person he may address a letter to the school expressing his choice of courses, or he may have some one register for him. School opens September 9.

OUR DEMOCRACY—by Mat

Registration by Landlords Must be Completed by Sept. 1

Registration by landlords of all dwelling accommodations, including hotels and rooming houses, in the Chicago defense rental area must be completed by September 1, Earl Dean Howard, area rent director, announced today. The area embraces the counties of Cook, Kane, Lake and DuPage.

Included in the registration, Howard announced, is every rented dwelling unit—houses, apartments, kitchenettes, hotel rooms, rooming houses, flats, tenements, tourist cabins, trailer homes and all other similar living accommodations offered for rent.

Registration forms are available at the State Bank of Antioch, the First National Bank, or at the village hall, Mayor George B. Bartlett announced today. He suggested that landlords inquire at the nearest real estate offices for direction and assistance.

An effort will be made to have the registration completed here by Tuesday night, Bartlett said. Today and Monday and Tuesday landlords will be given every assistance at the places of registration named.

"When the registration is complete," said Rent Director Howard, "all tenants in the four-county area will be provided with a copy of the form which will show the rent charged on all units on March 1, 1942, the basic maximum rent fixed by the regulation."

Howard warned property owners or agents of their liability to penalties for failure or refusal to comply with registration requirements. In this connection he listed four possible penalties to the delinquent owner or agent:

1. He will forfeit the right to file any petition or receive any recognition by the rent director.

2. In any eviction or other proceedings in the courts in this area, the court will be advised of such non-compliance. Any tenant may set up this fact in defense in any such action.

3. A presumption will be created that failure to register is motivated by an attempt to conceal non-compliance with the maximum legal rent requirement. In such cases the penalties provided by law are severe.

4. The law requires that no owner or agent may make any new contracts or agreements for the rental of any unit not registered. Any such contracts or agreements will be regarded as invalid.

Registration Simple "This registration is a simple process," Howard continued. Within a short distance of every landlord in the area, forms and postage-free envelopes can be obtained. It requires only a few minutes to fill out the triplicate form required. Once filled out, the landlord mails the form to the rent office. One copy will remain on file in the rent office, one will be returned

to the landlord, and the third will be sent to the tenant.

"Let me urge that landlords not wait until the last minute to fill out and mail in their registration statements. If the form is filled out properly, we will all save time."

While the registration form is in triplicate, Howard explained, it needs to be filled out only once, as the second and third copies are made by carbon.

Maximum Rent Rate. Forms will be carefully inspected at the rent office for accurate listing of both the rent charged and the services provided on March 1, the maximum rent date. Then copies will be mailed to both the landlord and tenant.

Instructions to the tenant on the reverse side of his copy of the registration form tell him that unless otherwise notified by the rent director, he is to pay no more rent than the maximum legal rent as stated in the section marked by a heavy green arrow. In the event the tenant disagrees with any of the statements in the form, he is to list his objections and return his copy of the statement to the rent office within 15 days. If the tenant does not disagree or question any of the statements, he need not return the form.

The instructions also tell the tenant that he cannot be evicted for refusing to pay more than the maximum legal rent, and that any agreement by the tenant to give up the benefit of any provision of the maximum rent regulation is void.

Must Report Change of Tenants In the event of a tenant sub-letting to one or more persons not members of his family, all or part of the dwelling he has rented himself, the tenant then must submit a registration statement. When he rents to three or more persons, he registers on the form which covers hotels, rooming and boarding houses.

In cases where a present tenant vacates, and the premises are rented to a new tenant, the landlord must show the new tenant the registration form, and have him sign it. The landlord must report such change in tenancy within five days.

A sample of the Landlord's Registration blank and further instructions will be found on page three of this issue.

Ravenscroft Holstein Makes New Milk Record

Brattleboro, Vt., August 14 — A registered Holstein in the herd owned by E. H. Ravenscroft of Antioch, has completed a production record of 22,394 pounds of milk containing 805 pounds of butterfat. This places her in the upper brackets of production for dairy cows in the nation, according to The Holstein-Friesian Association of America.

Colantha Ormsby Pietertje Fobes, as she is officially known, was 6-years-old at the beginning of her test period; she was milked three times a day.

Her record was made under the supervision of The Holstein-Friesian Association of America and the University of Illinois, Urbana.

Red Cross Seeks Blood Donors Here

Volunteers May Register at Antioch Banks or News Office

Seven hundred twenty blood donors are now being recruited by the local chapter of the American Red Cross. The mobile unit of the Chicago chapter will be in Waukegan for a week in the middle of September, taking blood from 120 volunteers each day.

The Waukegan-North Chicago and North Lake County chapter of the Red Cross has been attempting for some time to obtain the services of a mobile unit. Now, through the courtesy of the Chicago chapter, a completely equipped unit will be available to persons in this area who wish to share their blood with our fighting men. Registrations are to be completed by the end of August.

Appoint Committee At the meeting held Thursday evening at the Village Hall in Lake Villa, Mrs. M. V. Reynolds of Lake Villa was appointed blood donor chairman for the outlying chapter area of the Waukegan, North Chicago and North Lake County Chapter of the American Red Cross. Miss Mae Greer of Lake Villa was appointed secretary.

Mrs. Wm. Marks, chapter chairman of volunteer activities, presided at the meeting. Mrs. Wales Finnegan, blood donor chairman, explained the blood donor drive and the ways in which the blood will be used. A committee of "recruiters" was appointed to take care of registrations in the various outlying communities. These chairman and the communities they will serve are:

Mrs. James Simpson, Milburn and Wadsworth; Mrs. Reynolds, Miss Mae Greer and Mrs. Boris Reidell, Lake Villa; Mrs. Ed Tweed, Fox Lake; Mrs. Frank Valenta and Mrs. John Socerentino, Ingleside and Long Lake; Mrs. Claus Junge, Round Lake; Mrs. John Lodge, Round Lake Park; Mrs. LaVerne Dixon and Mrs. R. W. Thompson, Gurnee; Mr. Herman Holbek, Antioch; Mrs. Cecil Barton, Grays Lake.

Five on Local Committee Assisting Chairman Holbek in the local recruiting will be Antioch Fire Chief Louis Van Patten, Mrs. Herman Rosing, Mrs. Robert Webb, Mrs. Clarence Shultz and Mrs. Paul Ferris. Application may be filed at the State Bank of Antioch, the First National Bank, or at the Antioch News office, where the banks are available starting today.

The process the blood donor goes through is a simple one. After signing up as a donor he receives a card notifying him when to appear at the blood donor center. The center at Waukegan will be the American Legion home on Washington street. The Legion has offered the use of the building for this purpose.

Simple Process

The donor arrives at the center having refrained from eating fatty foods for four hours before the time assigned. A nurse will take this temperature, pulse and blood pressure, and stick his finger for a drop of blood to test the hemoglobin. She will ask a few questions about his health and assure herself that he is not suffering from an infectious disease or cold. If he seems well, and his hemoglobin registers at least 80 per cent he is asked to lie on a cot. The doctor will clean his inner arm and withdraw a pint of blood in five to eight minutes without pain. The donor must then rest a few minutes. The canteen corps will serve him a light lunch, and he can then go about his business of the day, wearing the little pin he will receive to show that he has given his blood to save another's life.

All personnel involved in the process will be supplied from their experienced membership by the Chicago chapter.

BLACK AND WHITE TOUR TO BE HELD SUNDAY

The second Black and White tour will be held on Sunday, Aug. 23, starting at 1 o'clock p. m. The tour will start at Henry Wegener's farm located on Route 12 about a mile north of the Route 120 intersection. From there the group will go to the William Wirtz farm, the Roney farm, and the A. H. Kohlbusch farm.

These tours are an innovation this year and are being used to give Holstein breeders an opportunity to see breeding systems and management practices being carried out on various farms. Since the Black and White show was cancelled this year, the directors of the association decided to hold a series of tours.

Every Holstein breeder and his family and friends are invited to the next tour on August 23. Other breeders who would like to attend are entirely welcome.

Planned Socialization Admitted

The drive to socialize the electric power resources of this nation does not consist of isolated and unrelated incidents. It is, instead, a national campaign—carefully planned and integrated. Every local campaign is part of the whole, as devastating as any foreign aggression plot to destroy democracies.

Any one can see that simply by looking at a map. In the Southeast, the TVA has an almost 100 per cent electric monopoly in whole states—and it is constantly enlarging its power-producing and distributing facilities. In the Midwest, such experiments as the Loup River project in Nebraska are doing their part to ruthlessly and needlessly destroy private ownership in one of the most essential and progressive industries in that state. In

California, Boulder Dam, Shasta Dam and other ventures are advancing the alien cause of socialism. Similar projects are doing the same in Oklahoma, Texas and other states. And in the Pacific Northwest, the drive toward total socialization of the electric power industry reaches its climax. Now pending in Congress is a Columbia River Power Authority bill which, if passed, would make all that area's power resources, privately owned and municipally-owned alike, subject to czar-like control of a group of Washington politicians.

The public-power zealots used to say that such projects as the TVA and the rest were primarily for navigation, flood control and irrigation, and that power was only a by-product. Now that dishonest camouflage has been abandoned. Recently, a Federal power authority in South Carolina said, in a brief presented to the courts, that "the object of the named projects (Bonneville, TVA and Boulder), and of scores of others that have since been undertaken, was to socialize... the business of producing and distributing electric energy." There, in a sentence, is the truth at last.

Socialized electricity would mean that a Washington clique of politicians would have the power of life and death over the industries and communities of every state. It would mean that state and local rights would be destroyed.

MILLBURN

The Rev. A. T. Rasmussen was an overnight guest at the Ralph McGuire home Saturday and was a dinner guest at the Eric Anderson home Sunday.

Lois Bonner spent the week-end with Miss Jean Bonner in Winnetka and attended the Music Festival Saturday evening.

Miss Doris Johnson returned to Elburna Saturday after a week at the J. S. Denman home. Miss Margaret Denman accompanied her to Elburna and remained until Monday evening.

Mrs. Charles Hoff of Camp Lake, Wis., spent Wednesday with her daughter, Mrs. Frank Haner.

Mrs. E. H. Edwards returned home Monday after a two-week visit with her daughter, Mrs. John Dickey, in Forest Park.

Twenty-five young people of the Central Christian church in Waukegan held a going away party and wicker roast Tuesday evening at the home of Betty and Delores Shank. The party was honoring Audrey Jackson of Georgia, who left Thursday for his senior year at the Bible Seminary in Georgia.

Mrs. Walter Fontaine of Evanston spent Sunday at the home of her parents, Mr. and Mrs. Harley Clark.

Mr. and Mrs. James Forsythe of Chicago, were recent callers at the Carl Anderson home.

Mr. and Mrs. Clarence Mair and daughter spent the week-end with their parents, Mr. and Mrs. James Mair in Chicago.

Mrs. Anna Hamman and daughter, Mildred, returned Sunday evening from a week's visit with Mr. and Mrs. William Perry in Detroit, Mich.

The Couples Club enjoyed a beach party at Bartlett's beach Saturday evening.

Mrs. James Mair returned to her home in Chicago Friday, after a week's visit at the Carl Anderson home.

LAKE VILLA

On Sunday, Aug. 23, the service flag in honor of the young men in our community who are in the armed forces of our country, will be dedicated at the worship service at 11 o'clock at the Community church and the parents, relatives and friends are especially invited to be present for this dedication.

The congregation enjoyed the special music last Sunday at the morning service. Mrs. Helen Carlson of Antioch sang the solo, "The Lord's Prayer" and Mrs. Bray accompanied her at the piano.

Corporal Norman Alward spent the past twelve days on a furlough with his parents east of town. He is stationed at Camp Livingston, La. During his stay here, his brother and wife, Mr. and Mrs. Sedwick Alward, gave a party in his honor, and his twin cousins, Elliot and Morse Fuller of Gurnee shared in the party to celebrate their birthdays. It was a very happy occasion.

Mr. and Mrs. Carl Seeger left last Saturday to spend a week with their daughter, Elsa Bailey and family at Cleveland, Ohio.

Mr. and Mrs. Arthur, Mr. and Mrs. Amundson and Drake Rega, all of Chicago spent the end of the week with Mr. and Mrs. Paul Avery, Jr., and on Saturday evening, Mr. and Mrs. Paul Avery, Sr., and the Eugene Sheehan family of Antioch were their dinner guests.

Mr. and Mrs. Andrew McGillicuddy visited friends and relatives in Chicago on Sunday, and on Monday attended the funeral of their daughter-in-law, mother in Chicago.

Mr. and Mrs. Clayton Handlin were in Waukegan Monday to attend the funeral of Mrs. Handlin's grandmother, Mrs. Wilson.

Mrs. Stella Pedersen entertained her two brothers, Frank and Ed Mathis and families of Chicago last week Wednesday and they all enjoyed a picnic at Sherwood Park.

Mr. and Mrs. Carl Wallner are enjoying a two-week vacation at their cottage at Phillips, Wis.

Mrs. Emma Ames of Libertyville and Mrs. Cora Pickering of Chicago are spending the week with their sister, Mrs. G. P. Manzer.

Mr. and Mrs. L. J. Tweed visited the Bell family, who formerly lived at Monaville, last Sunday. Their son, Harold Bell, is now with the U. S. Army in California.

Mrs. Annie Webster, a former resident here, now living in the Eastern Star home at Rockford, Ill., and Mrs.

Dulcie Meyer of Lake Forest

were callers in our village last week. Cedar Lake 4-H Club girls held an achievement program at Cedar Lake school on Friday evening, Aug. 14, and 62 guests were present. The program opened with the singing of America; the pledge of allegiance to the flag and the 4-H Club pledge. Ruth Schonscheck and Louise Meinersmann gave a demonstration on how to turn a hem. Joanne Wolfgang gave a dramatic reading, "Woman's Wednesday." The girls then gave a demonstration on their health project, "First Aid," with Vivien Warren, telling of the first aid kit. Marianne Paulson told of kinds of bandages, and Patty Warren acted as model for the two demonstrators. Ida Maier told of what to do in case of fire, and Louise Meinersmann followed with treatment of burns and Marianne Paulson told of dressing of burns and the spiral bandage. Ida Maier told of the spiral reverse bandage and Vivien Warren demonstrated the recurrent bandage. A playlet, "Our 4-H Gang," was given by all the girls of the club as they exhibited their garments. A prize was given to the girl who brought the most guests, and the leaders, Mrs. Roy Crichton and Mrs. D. Warren, awarded the prize to Vivien Warren.

Mrs. Betty Kanka of Oak Knoll subdivision, was taken to St. Therese hospital for surgery last week and is very ill. She has been given blood transfusions and her condition is very grave.

WILMOT

Mr. and Mrs. Frank Kruckman were Sunday afternoon guests of Mr. and Mrs. Karl Hyde and Mr. and Mrs. L. H. Cole at Crystal Lake.

Mrs. Harry Betzer and Mrs. Jessie Sorenson of Kenosha called on Frank Rudolph Sunday.

Mrs. Arlyce Hegeman, Milwaukee, spent the week-end with her parents, Mr. and Mrs. Leland Hegeman. Miss Nadia Hegeman, who has spent the past several weeks in Milwaukee, has returned to her home here.

Mrs. J. Sarbacher returned to the Herbert Sarbacher home on Sunday after spending two weeks at the home of her daughter, Mrs. August Burkart, at Woodstock.

Mr. and Mrs. Winn Peterson, son, Merlin, and daughter, Gloria Mae, left early Monday morning for a trip through northern Wisconsin. Mrs. Peterson and Gloria will spend several days at Winnetka, visiting an aunt, Mrs. Lottie Scherf, while Mr. Peterson and son will continue to Lac du Flambeau, where they will spend several days fishing.

Private Raymond Wertz who is stationed at Ft. Sheridan, enjoyed a two day leave of absence and spent the week-end with his parents, Mr. and Mrs. William Wertz.

Miss Evelyn Hazeman of Kenosha is a guest for two weeks at the Fred Albrecht home.

Miss Bernice Carey spent the day Monday at Milwaukee.

Week-end guests at the John Blackman home included: Mrs. Dorothy Trix and son, Bob, and Mrs. Ben Storie and daughter, Natalie, of Kenosha, Dr. and Mrs. H. H. Sawyer, Mrs. Sylvia and family of Golf and Springfield, Ill., Mr. and Mrs. Milton Gray and son Robert, of Kenosha, and Mr. and Mrs. C. Brennan of Milwaukee.

Mr. and Mrs. Walter Peterson and family of Milwaukee were Sunday guests of Mr. and Mrs. Clyde Gates.

Mr. and Mrs. Clarence Hyde of Denver, Colo., are spending several weeks with the former's brother, George Hyde and Mr. and Mrs. Ray Bufton.

Mrs. Margaret Bufton and daughters, Edna and Rosa, and Clyde Bufton and two sons of Kenosha were Sunday visitors of Mr. and Mrs. Ray Bufton and George Hyde.

A Fall Festival for the benefit of St. John the Evangelist Catholic church at Twin Lakes, will be held on August 28-29-30, on the Barry Club grounds. It was announced by Father Treahy.

Jack Holloway of Golf, Ill., is spending several days at the John Blackman home.

Mrs. Herman Hasselman and daughter, Mary Lynne, attended a wedding reception for Mr. and Mrs. Charles Thibault at the home of the bride's parents, Mr. and Mrs. Peter Van Der Zee, at Shades Corners on Saturday evening.

Visitors at the Herbert Sarbacher home on Sunday were: Mr. and Mrs. Louis Janitsky, Kenosha; Mr. and Mrs.

A. Caspary, Milwaukee; A. Dornier of Chicago, Mr. and Mrs. August Burkart, of Woodstock; and their guest, A. Burkart, of Miami, Fla., and Mr. Arthur Pankin, of Silver Lake.

A Kinball family reunion was held at the Sherman and Tilton home on Sunday and the family gathering included: Mrs. William Tontont and family, Mr. and Mrs. Frank Tontont and daughter, La Verne, Mr. and Mrs. Fred Lent and daughter, Lorraine, Mr. and Mrs. Max Miller, Miss Imelda Kinball and Mr. and Mrs. Glenn Allen, all of Geneva City; Mr. and Mrs. Carl Carlson, Hebron; Mr. and Mrs. Kenneth Maas and son of Burlington; Mr. and Mrs. David Kinball and George Hyde and Mr. and Mrs. Ray Bufton of Bassett.

Mrs. Henry Christensen and daughter, Mabel, of Highland Park, Duane Elbert and Hector Dedine were dinner guests at the W. Wertz home on Sunday.

Mrs. Irving Overton was pleasantly surprised by the Carey branch of the family at a reunion and house warming in their new home at McHenry. The affair was attended by Misses Grace and Erminie Carey and Richard Carey and several relatives from Wisconsin and Illinois.

Mr. and Mrs. Don Herrick and son Milton of Oak Park spent the week-end with their parents, Mr. and Mrs. Harry McDougall.

Mr. and Mrs. John R. West of Zion, Mrs. Laura Pastell and daughters, Gloria Mae and Jayne of Winthrop Harbor and Mrs. Winsor Madden and daughter of Kenosha, spent the day Tuesday with Mr. and Mrs. Herbert Sarbacher. Mrs. Pastell and daughters remained to spend several days at the Sarbacher home.

Mrs. Ethel Duvell and daughter, Sylvia, Mrs. Roby Bufton, Mrs. Carl Satterton, and the Misses Louise and Marie Korpish were entertained recently at the home of Hoorah and Catherine McGuire.

On Sunday the McGuire entertained the following dinner guests: Mr. and Mrs. Wesley McGuire and daughter, Mary Lou, and Mr. and Mrs. Benjamin Hattendorf, all of Chicago.

Mrs. Harold Foulke entertained at her home in Bristol at a picnic dinner in honor of her sister, Student Nurse Joyce Newell, who will soon receive her diploma from the University of Chicago. Those who attended were Mr. and Mrs. Ivan Newell, Mrs. Rose Newell, Mr. and Mrs. Carl Satterton and family, and Mr. and Mrs. Warren Behrens and family of Silver Lake.

Mr. and Mrs. William Eilers of Richmond spent Sunday evening with their daughter and family, Mr. and Mrs. Paul Voss.

Mrs. Wilson Cole spent Thursday and Friday at Harvard, visiting her niece and family, Mr. and Mrs. Frank Schell.

Mrs. Herbert Sarbacher returned from Madison on Tuesday evening, where she spent several days at the Genesee clinic.

Elmer Halin, Kenosha, called on Herbert Sarbacher Wednesday. On Friday, Edward Sarbacher and friend called at the H. Sarbacher home.

Mr. and Mrs. R. G. Mair and children of Burlington visited Mr. and Mrs. David Kinball.

Miss E. Kruckman, who has spent several weeks at her brother's home, returned to Kenosha Friday.

Mrs. George Duvell and her daughter, Sylvia, motored to Rockford on Thursday to spend two days with relatives.

Mr. and Mrs. David Kinball accompanied by Mr. and Mrs. Fred Lent of Geneva City, recently took a trip to Michigan and visited the Dicks.

Mrs. Herbert Sarbacher spent Thursday and Friday with her parents, Mr. and Mrs. John R. West, at Zion.

On Friday Mrs. Sarbacher accompanied her parents to Kenosha to visit her sister and family, Mr. and Mrs. Winsor Madden.

Mr. and Mrs. N. Stone and Mrs. Ben Stone of Kenosha and Mrs. Paul and Mrs. B. Arents of Chicago spent one day the latter part of the week at the home of Mr. and Mrs. John Blackman.

Mr. and Mrs. Ted Lehm and family of Milwaukee spent several days the past week at the home of her mother, Mrs. Charles Rasch.

Mrs. Harold Foulke and son of Bristol spent the day Thursday with her parents, Mr. and Mrs. Ivan Newell. In the afternoon they called on Mrs. Warren Behrens in Silver Lake. The attendance at the benefit for the new St. John the Evangelist church, held at Twin Lakes, was reported as large and several from this vicinity attended and enjoyed the affair.

Plane to Carry 80 Tons of War Material Planned

NEW YORK — Planes are steadily growing larger under the compulsion of war. Already they transport parachutists, now called skyinfantry. One of the big aviation companies has developed and begun manufacture of a large plastic airplane for transporting freight as well as troops. Another aviation concern has plans for a huge 300-ton plane, capable of carrying 80 tons of war material at speeds 25 to 30 times the rate of convoys ploughing the seven seas to distant theatres of war. Such a plane could make at least 25 round trips to one of the ocean freighters. Two of them would equal carrying capacity of an 8000-ton freighter and would cost not much more to build in less time with the marked advantage of quickly transporting troops or war supplies where vitally needed, free of submarine menace and danger of bombing while unloading at port of debarkation.

Commercial aviation has grown by leaps and bounds since the last war, particularly in past ten years. What can be expected of it after this war? On April 19th of this year Percy E. Bates, chairman of the Cunard Steamship Co., in a statement published in London, pointed out possibilities of serious competition between airlines and transoceanic steamships for passengers. One of the foremost aeronautics engineers engaged in manufacture of wartime planes, Mr. Grover Loening, recently stated that airplanes must replace ocean-gauging vessels completely, not only for passenger traffic but also for heavy freight. He predicted this would happen immediately after the war.

James E. McDewitt, an aviation engineer from the World War, has designed a monster airplane which is all body with no wings; i.e., it is a flying wing ranging from 500 tons to 3000 tons weight and, if desirable, even larger. It is powered by 60,000 horsepower of high-octane gas motors, directly operating the propellers in large wind tunnels running full length of the plane. The air is sucked in at high speed through openings at front of flying wing and discharged at end of the tunnels from rear of the plane. Some of the series of lifting airfoils or "sky-hooks," that are adjustable to lift or drop the

Picture above shows a 1500-ton plane having carrying capacity of 400 tons and capable of flying the stratosphere at 450 miles per hour for 21 hours without refueling.

to being 400 feet wide and 210 feet long above 1500-ton plane is 35 feet high in front, tapering down to a knife edge at the rear. So there is plenty of room in the flying wing above the tunnels for both passengers and freight—almost a million cubic feet which is about 1/2 the available space in the largest transoceanic liners.

Another important feature of this flying wing design is ability of plane to take-off vertically without any preliminary speed-up on a long concrete runway. Also the plane will land vertically without a jar because the rate of descent is controlled by a series of lifting airfoils or "sky-hooks," that are adjustable to lift or drop the

Marine Band 'President's Own'

The United States marine corps band became known as the "President's Own" when President John Adams set a precedent and ordered its appearance at all official functions between 1797 and 1801.

Remarkable Trait

It has been said the most remarkable characteristic of the U. S. Marines is the result attained by comparatively insignificant numbers.

Buffalo Roundup

A herd of 250 Buffalo recently was rounded up on a 7,000-acre pasture in the Wichita federal game preserve in Oklahoma.

IF each week you'll advertise, then...

your business will have sunny skies.

Rule of Billion People, Jap Aim

Chinese Find Map Showing Foe Planned to Enmesh Quarter of Globe.

WASHINGTON.—Japan's dream of a "Greater East Asia Co-Prosperity Sphere"—according to a map recently reported to have fallen into the hands of the Chinese government—would enmesh more than a billion people and dominate more than a quarter of the earth's surface, the National Geographic society computes.

As described in the Chungking dispatch, the map covered Russia's share of Sakhalin island, the Asia mainland and including Iran in the south, and Siberia to the Ural in the north; the northern tip of Australia; and all the islands of the Southwest Pacific. Hawaii was stated to have been specifically omitted from the proposed Japanese-controlled sphere.

To bring such a chart to reality, the Japanese would have to establish domination over practically all the kinds of terrain the world offers, as well as most of the races of the human family, the society points out.

Greatly Varied Regions.

The regions concerned vary from the vast desert stretches of the "Dead Heart of Asia" to the humid jungles of British Malaya, from the Arctic wastes of the Siberian tundra and the lonely plateaus and peaks of Tibet's "Last Horizon" land, to the busy, oil-soaked flats of Iran. They contain some of the most fertile and the most desolate areas on earth; the highest mountains and the deepest seas; the wettest spots in the world, and some of the coldest and the hottest weather known to man.

In size, the individual territorial units marked for "Co-Prosperity" range from tiny coral islets to the vast reaches of Siberia, some 5,000,000 square miles in extent. The names of countries concerned (some of them already under the flag of the Rising Sun) read like a section from a gazetteer. Already overrun in part or in whole are Manchukuo, Inner Mongolia, China, French Indo-China, Thailand, British Malaya, the Philippines, the Netherlands Indies.

Burma, Borneo, New Guinea, and near-by smaller islands.

Designed for conquest are Siberia (with northern Sakhalin island), Outer Mongolia, Tibet, India, Afghanistan, Iran, northern Australia, and the main bulk of the southwestern Pacific Islands.

Control 400,000,000 People.

In estimated round numbers, the Japanese so far have succeeded in bringing under their control some 400,000,000 people and more than 2,500,000 square miles of territory. These figures represent the completion of roughly a little less than two-fifths of the population involved and between one-sixth and one-seventh of the land area as reported mapped.

The races of Asia and the Pacific islands are more varied in type than those of any other major region, from the cameo-featured Hindu to the broad-faced Mongol; from the cream-colored, slant-eyed Eurasian to the woolly-haired black, with crude ornaments in his nose and ears. There are Tatars, Malays, Polynesians and Negroes; the Maoris of New Zealand, Dravidians of India, Kurds of Iran, Kalmucks of western China and Siberia, Papuans of New Guinea, the Singhalese of Ceylon, Annamese of French Indo-China, the Pathans, Turcomans and Tajiks of south-central Asia. There are the "fighting Igorots" of the Philippines and the famed warlike tribes of Gurkhas in the wild, independent kingdom of Nepal, between northern India and Tibet.

These peoples speak hundreds of different languages and practice fantastically assorted religions and other customs of life and work.

Powerful Amplifier

So powerful it enables listeners to hear grass growing, a new radio amplifier has been perfected in Europe.

Bayonets

American troops are being equipped because of that radio-phonograph Mr. and Mrs. America didn't buy this year. The steel in an average radio-phonograph would make close to a dozen bayonets.

San Juan's Even Climate

The temperature in San Juan, Puerto Rico's capital, has never been above 94 degrees or below 62 degrees in the history of the United States weather bureau.

Brazilian Girl Explorer Sculps Jungle Killers

Intrepid Young Woman Goes Into Wilds to Secure Subjects for Art.

NEW YORK.—A woman with dark red hair walked softly in the jungle of Paraguay to kill a jaguar.

She saw a black spotted body touched by a flare of sunlight, lifted her rifle, fired—and missed. The lean cat sprang away, and a hunter beside her killed it with a single arrow. Vividly Miss Irene Hamar, 29 years old, native of Sao Paulo, Brazil, daughter of a Brazilian coffee planter, remembers now the powerful throb of the native hunter's bow, the arc of that arrow.

She remembers the moment when a hooked tarpon pulled her into the sea off Cuba, and the instant of teetering balance while she sped down a ski run on a Chilean mountain.

But—those aren't the most exciting moments of her life, she told Frank K. Kelly, *World* writer.

The minutes which have set the deepest excitement in her throat have come, she declares, in the sudden emergence of living figures from hard cut stone, after days of struggle with a sculptor's hammer.

Exhibits Her Art.

Miss Hamar presented recently the first

Brazilian sculpture ever held in New York. She has 160 major works to her credit, many of them created in her studio overlooking the great harbor of Rio de Janeiro. "I work 10, 12, or 14 hours a day there, for weeks and months," she murmurs. "How many hours, how long it takes, doesn't matter if I see something in the stone."

She has been engaged in sculpture for 17 years, beginning as a child by making plastic masques of the faces of the people she saw around her.

"It's a little like wrestling, a little like boxing with some one hidden from you," she believes. "I do not often make plastic models now. I attack the stone directly. I feel the dust in my face, I see something taking a form, coming alive for me. That is the best moment of all."

Miss Hamar studied in Paris and traveled through Europe several years in the middle 1930s, learned to speak French, English, Spanish, Italian and German in addition to her native Portuguese.

Likes Those Faces!

"The people everywhere have such fascinating faces," she says. "When I was a child, I couldn't help making masques of such wonderful expressions, such strange heads."

Although her exhibition included many portraits taken from people she has known, many of the figures were cut and hammered to fulfill the urges of her imagination, to give shape to what she felt was hidden in masses of white and rose marble, Brazilian alabaster, and bronze.

One of her favorites is a bronze figure of a woman with bowed head, called "vestal."

An Article of Distinction.

From the inevitable loneliness of an artist's studio, Miss Hamar turns often to the sea and to the swift thrill of skiing in Chile or Argentina. She holds medals for her skill as a ski runner and ski jumper, and she has caught huge tarpon in the Atlantic.

"Once I went out with some friends from Havana, and a tarpon pulled me right from the boat," she recalls. "As you say it—believe me, I let him go. It was not exactly what you would call an easy game of pingpong."

She has made trips up the Amazon river, visited the villages of the Bolivian Indians, and explored the vast jungle of the Mato Grosso plateau in Paraguay. It was in the jungle near this plateau that she went on foot with native hunters in search of jaguars.

Plenty of Taxes

The railroads of the country pay approximately \$400,000,000 in taxes each year.

Female Clerks

The 1,200 female clerks employed by Hospitals Trusts, Ltd., which conducts the Irish Sweepstakes at Dublin, Irish Free State, are being tested to determine their mental fitness.

Landlord's Registration Form

GENERAL INSTRUCTIONS
The landlord is required to register separately each rental dwelling unit, whether occupied or vacant. A dwelling unit is a room or a group of rooms for which a single rent is paid. Complete this Registration Statement in triplicate, remove carbons, and mail or bring the three copies to the Area Rent Office. Use extra sheets, in triplicate, for sections "D" & "E" if necessary. If the dwelling unit was not rented at any time during the period between January 1, 1942, and July 1, 1942, an application to establish the Maximum Legal Rent must be made on Form DD-112-2.

**UNITED STATES OF AMERICA
OFFICE OF PRICE ADMINISTRATION
REGISTRATION OF RENTAL DWELLINGS
(TYPE OR PRINT PLAINLY - DO NOT FOLD)
(Do Not Use This Form for Hotels and Rooming Houses)** Form DD 2-D
AREA OFFICE COPY

IDENTIFICATION

1. Address of this rental dwelling unit
2. Apartment number or location
3. Number of Rooms in this dwelling unit
4. Total Number of dwelling units in this structure

SECTION A. MAILING ADDRESS OF LANDLORD

1. Name of Landlord
2. Name of Agent
3. Address Mail to:

Name _____
Address _____
City and State _____

SECTION B. MAILING ADDRESS OF TENANT

Name of Tenant _____
Address _____
City and State _____

SECTION C. MAXIMUM LEGAL RENT
Read carefully and fill in every item which applies to this dwelling unit.

1. Rent on March 1, 1942: \$_____ per week () per month ()
2. Not rented on March 1, 1942, but rented at any time between January 1, 1942 and February 28, 1942.
Date last rented during that two-month period: _____, 1942.
Rent on that date: \$_____ per week () per month ()
3. Not rented at any time between January 1, 1942 and March 1, 1942, but rented before July 1, 1942.
Check one box:
() (a) Owner occupied or vacant between January 1, 1942 and March 1, 1942.
() (b) Newly constructed without priority rating.
() (c) Newly constructed with priority rating. (If checked, item 6 must also be filled in.)
Date first rented after March 1, 1942: _____, 194_____
Rent on that date: \$_____ per week () per month ()
4. Dwelling unit made available by a change which resulted in an increase or decrease in the number of dwelling units after March 1, 1942, but before July 1, 1942.
Date first rented after such change: _____, 194_____
Rent on that date: \$_____ per week () per month ()
5. Substantially changed after March 1, 1942, but before July 1, 1942. Check one box:
() (a) From unfurnished to fully furnished.
() (b) From fully furnished to unfurnished.
() (c) By a MAJOR CAPITAL IMPROVEMENT as distinguished from ordinary repair, replacement and maintenance.
Date first rented after such change: _____, 194_____
Rent on that date: \$_____ per week () per month ()
6. Dwelling unit newly constructed with a priority rating from the United States or any agency thereof.
Rent approved by agency granting priority: \$_____ per week () per month ()
7. THE MAXIMUM LEGAL RENT FOR THIS DWELLING UNIT IS: _____ per week () per month ()

Enter Maximum Legal Rent in accordance with the following instructions:
(a) If only one of the above items applies to this dwelling unit the Maximum Legal Rent is the rent entered for that item.
(b) If more than one of the above items apply to this dwelling unit the Maximum Legal Rent is the rent reported for the most recent date except in the case of item 6.
(c) If item 6 applies to this dwelling unit the Maximum Legal Rent is the lower of the two rents entered in item 4 and item 6.
(Note: If you check item 3(b), 4, or 5, or 6, you must also fill in the information required by Section E.)
(Note: If you check item 3(c), 4, or 5, or 6, you must also fill in the information required by Section E.)
(Note: If you check item 3(c), 4, or 5, or 6, you must also fill in the information required by Section E.)

Section E - See Note Section C. 7 *
If item 3(b), 4, or 5 of Section C was filled in, set forth in specific detail the type and cost of:
(a) New construction (c) A change from unfurnished to fully furnished
(b) A change in the number of dwelling units (d) A major capital improvement

Are all equipment and services indicated above now included in the rent? Yes () No ()

WARNING
The rent for this dwelling unit on and after July 1, 1942 can be no more than the Maximum Legal Rent entered in Section C, item 7.
A false statement on this form or an evasion or attempted evasion of the Maximum Rent Regulation may subject you to a \$5,000 fine or imprisonment for one year.
I HEREBY REPRESENT that all statements and entries given hereon are true and correct.

(Signature of Landlord or his Agent)

This is the form that landlords in Chicago and throughout Cook, DuPage, Lake and Kane counties must file with the Chicago rent office, 222 W. Adams St., by September 1.

Peak registration days are Tuesday, Wednesday and Thursday, Aug. 18, 19 and 20, when a corps of volunteer workers at real estate offices and banks will assist landlords to register the more than 1,000,000 dwelling units throughout the four county area.

Blank forms will be available at all post offices beginning Tuesday, Herbert N. Lustig, director of registration, announced. He gave this advice to landlords:

1. Go to the nearest post office and obtain a form.
2. In each post office will be a list of convenient "rent information centers" located in real estate offices and banks where assistance will be given during the three days of concentrated registration.

3. If registration is not accomplished Tuesday, Wednesday or Thursday, landlords may secure forms at the area rent office, 222 W. Adams St. All forms must be filled out and returned by September 1.

The form pictured is for landlords registering houses, apartments, flats, tenements and similar "non-transient" dwelling units. A different type blank is provided for the relatively fewer number of operators of hotels, rooming houses, trailer camps and other units of a "transient" character.

These are Lustig's instructions how to fill out the form pictured here:

1. Type or print carefully so that a clear impression will be made. The form is in triplicate, the second and third copies being made by carbons.
2. If the unit is vacant at the time of filing, put the word "vacant" after "name of tenant" in section B.

A registration form must be filed for each unit in a building. For example,

an owner of a 12-apartment building must file out 12 forms. Include owner and janitor occupied units.

4. If you are charging no more than the rent on March 1, 1942, fill in items 1 and 7, check the services and equipment under section D, sign your name and you are finished.

5. If you are charging any more or less than the rent on March 1, follow carefully instructions in items 2 to 6.

6. Item 7 must be filled in on all registration forms. The maximum legal rent for the dwelling unit is the rent charged on March 1, 1942, regardless of any lease or rental agreement, unless a different rent is allowable under items 3, 4, 5 or 6.

7. Be sure to fill in section D for all units.

8. Indicate in section E if a previous petition for upward adjustment in rent has been filed. If you are attaching supporting evidence to section E, make sure it is in triplicate.

9. Forms may be signed by the landlord or his agent. It is not necessary to have the form notarized.

10. If the rent on a dwelling unit has been fixed by the rent director, leave blank items 1 to 6 in section C, and enter the rent ordered in item 7. The following wording should be entered in the blank space in section E: "The maximum legal rent has been fixed pursuant to an order of the area rent director. Entered _____ day of _____."

11. Sign the statement, examine it to make sure all three copies are readable; remove the carbons and mail all three copies in the Chicago area rent office, 222 W. Adams St. Do not fold the form.

12. After the registration statement has been examined and verified by the tenant, the landlord's copy will be returned. It must be produced on demand of any new tenant.

SOCIETY EVENTS

Antioch Home Bureau Makes Cookies for Boys in Service

The Antioch Unit of the Home Bureau made 183 dozen cookies for the boys in service who drop in at the Waukegan U. S. O. building on Sheridan road.

Mrs. Eugene McDougall, Mrs. George White and Mrs. Curtis Wells attended the annual home bureau garden party, August 6, at the Hawthorn Farm. Mrs. White and Mrs. Wells sang with the county chorus.

Mrs. McDougall is entertaining the unit at her home on Fox river, Aug. 26. It is to be a picnic meeting. The September meeting will be held at the home of Mrs. Curtis Wells on Route 173.

JOHANNA A. THOMPSON CLUB ELECTIONS OFFICERS

Election of officers for the ensuing year for the Johanna A. Thompson Club of Northern Illinois followed a pot-luck luncheon Sunday at the Lake Forest Masonic temple at 6:30 o'clock.

Chosen as president was Mrs. Lillian Robinson, past matron and grand instructress of Lake Forest. Other officers elected were: 1st vice president—Verna McClure, past matron and grand instructress of Waukegan; 2nd vice president—Marie Snyder, past matron of Highland chapter, Highland Park; 3rd vice president—Adah Hachmeister, worthy matron, Antioch chapter; secretary—Blanche Mitchell, past matron, Libertyville chapter; treasurer—Floyd Matthews, past patron, Libertyville chapter; chaplain—Genevieve Austin, associate matron, North Chicago chapter.

The next meeting of the club will be held at the Thompson cottage at Wonder Lake. There will be a pot-luck supper and everyone is invited.

GUILD SOCIETY SPONSORS CARD PARTY AND LUNCHEON

The Ladies Guild society of St. Ignace church will hold a card party and dessert luncheon at the church hall on Wednesday, August 26, at 1:30 o'clock. There will be bridge, 500 and pinocle, and the admission will be 40 cents with 4 cents federal tax.

Card of Thanks

We wish to thank all those who assisted us during our recent bereavement.

Mrs. Nels A. Nielsen and family.

Idleness is an appendix to nobility.—Robert Burton.

Labor-Saving Device

Farmers will have to work more hours to reach their 1942 production goals unless they adopt electricity as a labor-saving device, just as tractors are being used to speed up field work.

It has already been demonstrated that much labor can be saved at a little expense in the use of electricity for lights, for putting water under pressure, for processing and handling feeds, for electric fencing and for operating milking machines and breeding pigs and chicks.

Electricity will play an important part in making the development of rural industries possible. On farms where secondary agricultural production is not practiced, the extra time resulting from the present system of mechanized farming may be used to advantage in the shop operating a wood lathe or other wood-working equipment, or on an electric welder making some part or a complete item of commercial value.

CHRISTIAN SCIENCE CHURCHES

"Soul" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 16.

The Golden Text was, "My soul shall be joyful in the Lord: it shall rejoice in his salvation" (Psalms 35: 9).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "If ye walk in my statutes, and keep my commandments, and do them: Then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit. And I will walk among you, and will be your God, and ye shall be my people" (Lev. 26: 3, 4, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Nothing but Spirit, Soul, can evolve Life. For Spirit is more than all else. Because Soul is immortal, it does not exist in mortality. Soul must be incorporeal to be Spirit, for Spirit is not finite. Only by losing the false sense of Soul can we gain the eternal unfolding of Life as immortality brought to light" (p. 335).

Furs for the Fair Sex

Some 30,000 muskrats which will eventually grace the shoulders of American and Canadian women, are being trapped this spring by Indians on the Two Island preserve near the Pas, Manitoba. The Two Islands muskrat harvest is being shared by 160 Indian and non-Indian trappers who for three weeks work should receive an average of \$20 per month for the ensuing 12 months. The preserve of 160,000 acres has an estimated 60,000 muskrat population.

Tropical Heat

Palms line the gleaming coral beach at Nassau, and when the northern lands are shivering in the grip of snow and sleet, the Bahamas are like a veritable tropical paradise. At Nassau, the capital, the water is warm and unbelievably blue, so that the sand looks white and the palm trees greener by contrast. The beaches are ideal, sheltered as they are by the jutting coral reefs that surround the island.

Simple Arithmetic

The circumference of a circle is found by multiplying the diameter by 3.1416. To find the diameter of a circle, multiply the circumference by .31831. For the area of a circle, square the diameter and multiply by .7854.

Personals

Mrs. Jack Dunning and son, David, and Miss Melanie Jean of Chicago, were guests Wednesday in the home of Mrs. Dunning's parents, Mr. and Mrs. Simon Simonson. Also a guest in the Simonson home during the past week was their older daughter, Mrs. Eric Ankarburg and son, Edward, of Chicago.

Emerson Huff has returned to his home at Belleville, Ill., after spending his vacation at the Huff home at Cross Lake. He was accompanied to the station by Betty Huff, Louise Elms, Betty Buscher, Marilyn and Laurel Sobey.

Mr. and Mrs. Monte Hinton and sons, Jimmy and Bobby, of Cincinnati, Ohio, arrived here Sunday to spend a two weeks vacation with Mrs. Hinton's mother, Mrs. Clara Westlake, and sister and husband, Mr. and Mrs. Fred Yates.

Nels Nelson, 84, grandfather of Myrus Nelson, returned Tuesday to his home in New York after several days visit here in the Nelson home. Mr. and Mrs. Frank House, Chicago, were also guests of Mr. and Mrs. Nelson over the week-end.

Mrs. Norman Boyer and infant son have returned to their home in Buffalo, N. Y., after a visit here with her parents and grandparents, the William Lenz, Jr., and Sr. families of Chicago and Lake Marie.

Rosalie Sibley entertained three of her school friends at a house party at the home of her parents, Mr. and Mrs. N. E. Sibley, Tuesday and Wednesday of this week.

Mrs. Lillian Rotnour and granddaughter, Gloria Rotnour, have returned to Elgin, after a visit in the home of Mr. and Mrs. V. B. Felter.

Mr. and Mrs. Jacob Kubs have returned after a few days visit with relatives in Harrodsburg, Ky.

Mary Lou Sibley, a student nurse at St. Luke's hospital in Chicago, spent Monday and Tuesday with her mother, Mrs. N. E. Sibley, and sister, Rosalie.

Margot McNamara Johnson of Havana is spending the week as guest of the A. F. Mathisens of Bristol.

Robert Burke is expected home Friday from Menominee, Wis., where he has been attending State Institute.

U. S. '41 Birth Rate

Highest in History

Record 2,500,000 Figure Due To War Conditions.

WASHINGTON.—War conditions resulted in 1941 in the largest recorded birth rate in the history of the United States, Miss Katharine Lenroot, chief of the children's bureau of the department of labor, reported to congress.

Nearly 2,500,000 births were recorded last year, 140,000 more than in 1940, Miss Lenroot reported. She estimated that the birth rate "will increase very materially in the next year or two."

"In every war period," she said, "there is a great tendency toward early marriages and an increased birth rate, and that is true at this period."

Miss Lenroot appealed to the congress and to the country to consider health problems. She gave the following illustrations of the situation existing in certain defense areas:

In Oklahoma it is reported that a powder plant now being built in a community of 500 will employ from 6,000 to 10,000 workers. In the whole area there is only one physician, who is 75 years old, and there are no hospital facilities. In South Carolina a community of 25,000 with five doctors reports that three of them have gone into military service leaving only two elderly physicians who have virtually retired from practice.

There are 400 counties, or about one-sixth of all the counties in the United States, which have defense areas. At last July, 29 of those counties had no public health nursing services; 25 had no prenatal clinics and 150 had no child health conferences.

See Quinine Substitute

In 'Georgia Bark' Shrub

ALBANY, GA.—A substitute for quinine may be found in an American shrub known as Georgia bark. Dr. James C. Andrews of the department of biological chemistry of the University of North Carolina's school of medicine, has been experimenting with the medicinal properties of the plant.

Other scientists also are studying Georgia bark, known botanically as Pinckneya pubens, and orders for as much as 100 pounds have been received by the department of agriculture. The bush, now in full bloom of pink and green, grows best in the damp wooded places between here and the Florida line.

Horton Family Holds Tenth Annual Reunion

Fifty-six relatives attended the Horton family tenth annual reunion held Sunday in Fox River park. Family kin from Indiana, Chicago, Milwaukee, and Cheek, Wis., were in attendance. The oldest person present was Murray Horton, 80, of Antioch, and the youngest was Mr. Horton's month-old great great grandson, Gerald Lee Horton, son of Mr. and Mrs. Raymond Horton.

THOUGHT FOR THE WEEK Contributed by the Baha'i Group JUSTICE

"Justice is not limited; it is a universal quality. Its operation must be carried out in all classes, from the highest to the lowest. Justice must be sacred and the rights of all the people considered. Desire for others only that which you desire for yourselves; then shall we rejoice in the Sun of Justice which shines from the horizon of God."

"Each man has been placed in a post of honor which he must not desert. An humble workman who commits an injustice is as much to blame as a renowned tyrant. Thus we all have our choice between justice and injustice."

"When perfect justice reigns in every country of the Eastern and Western world, then will the earth become a place of beauty. The dignity and equality of every servant of God will be acknowledged; the ideal of the solidarity of the human race, the true brotherhood of man, will be realized, and the glorious Light of the Sun of Truth will illumine the souls of all men."

'Abdu'l-Baha.

Grass Lake Social Club Thanks News for Aiding Carnival

R. R. I, Spring Grove, Ill.

Aug. 19, 1942

Dear Sir:

We wish to take this opportunity to thank you for the wonderful assistance your paper, the Antioch News, rendered us in making our Victory Carnival of Aug. 15, 1942, a success beyond our fondest dreams—thereby making it possible for us to help the Red Cross and the Army and Navy Relief to the amount of six hundred dollars or more. We also wish to thank through your paper, the many hundreds of patriotic people who contributed and attended our Carnival.

Edward Sullivan, President

Grass Lake Social Club.

Carl Wilton, Aged 15, Buried Here Saturday

Carl Wilton, 15, only child of Mr. and Mrs. Harold Wilton of Bristol, was buried in Hillside cemetery here Saturday following funeral services held at 10 a. m. at Strang's funeral home.

The Wilton family formerly lived at Pikeville, but moved to Bristol a few years ago.

Carl had been a semi-invalid since suffering a severe illness about seven years ago. He was the grandson of Henry Hunter.

Every ton of iron and steel scrap salvaged saves two tons of iron ore, one of our most precious national resources. GET IN YOUR SCRAP.

Farm Building Must Have Board's Permit

WPB Recognizes Need of Limited Construction

County war boards of the United States department of agriculture will co-operate with the War Production board in handling applications for authorization to begin construction work on farms, the War Production board announced.

The United States department of agriculture is co-operating with the WPB in formulating policies under which county and state U. S. D. A. war boards will make recommendations covering farm residential and agricultural construction. Projects recommended by these boards will be forwarded to the War Production board for final approval.

Order L-41, issued by the War Production board, prohibits the start of unauthorized construction projects which use materials, labor and construction equipment needed in

the war effort, and places all new publicly and privately financed construction under rigid control.

The War Production board recognizes that a limited amount of construction by farmers is necessary to maintain and increase production to meet agricultural goals and that certain off-the-farm facilities are also needed for the production, handling and processing of farm products.

A farmer planning to begin construction which needs authorization should consult his county United States department of agriculture war board.

All farm projects, including residential, agricultural, and off-the-farm construction, such as warehouses, processing plants, creameries, etc., will be considered first by the United States department of agriculture county war boards. Applications for projects recommended by these boards will be sent to state war boards and then to the department of agriculture.

The department will consider the recommendations and send to the War Production board for final approval those which are deemed essential.

So far as residential construction is concerned, farm dwellings are covered by the same regulations as other residential construction. If farm residential construction, during any 12-month period, costs less than \$500 per farm, no authorization is necessary. Likewise no authorization is required for construction begun prior to April 9, 1942, for maintenance and repairs; or for reconstruction or restoration of farm residential construction damaged or destroyed after December 31, 1941, by fire, flood, tornado, earthquake, act of God or by public enemy.

Take Care of Your Milking Machine as Parts Are Hard to Get

The milking machine is essential to wartime agricultural production, and must be cared for properly because shortages of rubber and metal will not permit normal replacement.

The following rules for the care of rubber milking machine parts are suggested:

Use two separate sets of liners, alternating them each week. Rubber needs "rest."

Keep liners tight in teat-cup shells.

Keep milker rubber parts clean and free from all butterfat, which causes deterioration.

Rubber cuts easily when wet. Use care in assembly and disassembly of units.

Do not use chlorine solutions of a strength exceeding 250 parts per million, for excessively strong chlorine solutions will injure rubber.

If lye is used in the care of rubber parts, be sure that it does not remain in contact with the metal parts.

Battling Soil Erosion

Legume crops such as alfalfa, clover, soybeans and lespedeza are being used with increasing success as "heavy artillery" in fighting the battle of soil erosion. Legumes keep the topsoil in place, deposit nitrogen in soil and provide it with needed supplies of organic matter. To do their best work, legumes should be reinforced by intelligent soil management such as the use of fertilizers high in phosphorus and potash.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

JUDAH: AN EXAMPLE OF SELF-SACRIFICE

LESSON TEXT—Genesis 44:18-34. GOLDEN TEXT—Hereby perceive we the love of God, because he laid down his life for us; and we ought to lay down our lives for the brethren.—1 John 3:16.

The family is still the fundamental unit of society, and is therefore of more importance than the church, the state, or the social order of which it is a vital part. Every force which encourages the breakdown of the sacred relationships of the home and family is set for the destruction of society itself.

Men have too often chosen to go the way of the flesh, and therefore they have disregarded God's plan and purpose. But marriage is just as sacred as ever in His sight; the home is to be kept for Him; and brotherly love still finds a high place among the virtues of real men.

Today's lesson is a continuation of the story of Joseph's life. As we study it we must bear in mind Joseph's dealings with his brethren, who as yet did not recognize him as the one they had sold into captivity. He was bringing them kindly but definitely to the point of real repentance, so that he could show himself gracious to them.

To do so he had brought disaster upon them. Being happily on their way homeward with a new supply of food, they were overtaken and proved to be thieves, and Benjamin, the beloved of their father Jacob, stood condemned by their own words, to death.

In that crisis the mouths of the others seemed closed, but Judah, who had really saved Joseph's life (Gen. 37:26, 27) and who had apparently come to himself as a man of essential goodness, pleaded for Benjamin's life. That plea presented a truly sacrificial brotherly love, as he manifested.

I. Courage (v. 18). Easy rests the yoke of family life as long as all is joyful and prosperous. But when adversity strikes, when sorrow comes, or sickness, or sin, then the true test of devotion is at hand.

It was a brave and manly thing for Judah to stand before the one whom he knew only as the man who was "even as Pharaoh." The circumstances were all against him. He expected the flaming anger of the offended ruler. His brethren had collapsed in despair. It was one of those dark hours which come to every family when someone must demonstrate true love by being strong-hearted and steady.

II. Intelligence (vv. 19-20). Crises call for more than a cheerful smile or an encouraging word, much as they may mean in such an hour. We must be prepared by our close contact with our loved ones to speak and act with vigor and assurance.

Judah's plea is a masterpiece of argumentation and appeal, demonstrating that he was not only well-informed about his family and its problems, but ready to use his knowledge skillfully and effectively.

III. Self-Denial (vv. 30-33).

One step deeper goes the devotion of this man to his father and his brother. He had done no wrong that merited punishment, but evidently his brother Benjamin had been guilty. Had he been of the spirit of Cain he would have said, "Am I my brother's keeper?" and let him answer for himself. Why should Judah suffer for another? Why should he allow himself to be imprisoned in a strange land to save his father from sorrow and his brother from what seemed to be the just reward for his deeds?

Thus reasons the man of the world, but such is not the language of the true brother, who says, "Let thy servant abide instead of the lad as a bondman."

IV. Love (v. 34).

Love for father and brother underlies all of the courage, conviction and self-sacrifice of a man like Judah. In his younger years, and possibly under the influence of his brothers, he had failed in that respect, but now his real devotion to his brother was evident.

That affection was a real, powerful, and beautiful thing, and yet it is but a faint prefiguring of the affection of the One who "sticketh closer than a brother," who "though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich" (Prov. 18:24; II Cor. 8:9).

Let us improve the opportunity to review our relations with our own family, to determine whether there is aught that we in intelligent and courageous self-sacrifice should do for our own.

Know Your Neighbors Know your neighbors. Call on them to meet together, in your home to exchange information. This friendly association, this neighborliness, will create courage and confidence—the morale so necessary for victory.

News of the Boys in Service

Jennrich a Sergeant

For his outstanding work in Battery "B," 340th Field Artillery Battalion, Camp Carson, Colo., Sergeant Wilfred F. Jennrich, son of Mr. and Mrs. Emil Jennrich of Antioch, was promoted to Staff Sergeant by his commanding officer on August 10.

Sergeant James Nielsen arrived here Saturday from Camp Shelby, Miss., being called by the death of his father, Nels A. Nielsen, last Wednesday. He is spending a few days here with his mother and family.

Private George Hawkins, 39th Bomb. gp., Davis Monthan Field, Tucson, Ariz., arrived here Tuesday afternoon and is enjoying a furlough at the home of his parents, Mr. and Mrs. Arthur Hawkins, Robert Hawkins, brother of George, who lately joined the U. S. Marines, is stationed at San Diego, Calif.

Charles Hawkins, son of Mr. and Mrs. Fred Hawkins, is leaving Monday for Quantico, Va., where he will attend training school for the coast guard duty.

Oldsters Are Able and Willing to Work, State Survey Shows

A recent survey of Illinois old age assistance rolls and case histories found eighteen hundred men under the age of 75 who are able and willing to work. More than one-third of them have a background of agricultural experience as farm owners, tenants or hired men. The others were skilled or semi-skilled laborers. Efforts are being made to find suitable work for these men.

Jack Daly, Former Deputy Sheriff, Dies Thursday in Waukegan

John E. (Jack) Daly, 50, former state policeman and deputy sheriff, died Thursday afternoon in Victory Memorial hospital in Waukegan. His death was attributed to an injury suffered several years ago, at which time he underwent an operation following an accident while on his motorcycle.

For the past several years he had been an automobile salesman. During the late twenties he was a state highway policeman, and later was deputy sheriff of Lake county, working out of the state's attorney's office as an investigator. At one time he operated a farm in western Lake county, and was well known in this community.

He leaves his widow, Ada, a daughter, Jean, and a son, Arthur.

Take Third of State Cars Off the Highways

Within the next few weeks at least one-third of the passenger cars and ten per cent of the trucks ordinarily operated by the state of Illinois will be taken off the highways and put in storage. Their tires will be removed and held in reserve for future use by departments of law enforcement, fire protection, public health, safety and highway maintenance.

This action has been ordered by Governor Dwight H. Green to conserve tires and equipment and reduce expenses. The state has been unable to purchase new tires since last December, and its reserve stock of tires is very low.

Infantile Paralysis Reported

The State Board of Public Health reports several cases of infantile paralysis in the state, with one in Antioch, Ronnie King, son of Mr. and Mrs. Robert King, who has been placed in the isolation ward at St. Therese hospital, Waukegan.

Horse and Buggy Days

WANTED—Extra good single and double buggies. Must be in good condition. Write kind and location.

The above unusual advertisement appears in the classified columns of today's News. Now who in this day and age of rapid transportation and faster living would want to make a business of buying old buggies? It aroused the writer's curiosity, and the advertiser, Harry J. Schrock, of Goslen, Indiana, explained that the buggies were reconditioned and sold principally to people of the Amish faith in the vicinity of Goslen.

The Amish people are found in various communities scattered throughout northern Indiana, Ohio and Pennsylvania. The Amish were named from Jacob Amann, or Amen, a strict Mennonite of the 17th century. The Mennonites are a denomination of Evangelical Protestant Christians, so called from Menno Simons (1492-1559) of Friesland, one of their leaders. Their confession of faith enjoins the practice of foot-washing, the intermarriage only of members of the same faith, non-resistance to violence, and forbids the taking of oaths. They reject infant baptism, accept no public offices except those connected with the management of schools. Ministers, elders and deacons are chosen from the congregations. The Amish branch of the Mennonites was founded in 1620. They practice plainness of dress, and the use of hooks instead of buttons; wear no jewelry, and lead the simple life. Men wear chin whiskers. They stick to the horse and buggy as the approved method of transportation; although the younger set is gradually slipping away from the age old customs. Any departure from the rigid rules of the faith, such as owning a car, or even riding in one for pleasure is frowned upon by the elders.

Long May It Wave! The tattered but proud "Old Glory" which waves each day atop the flagpole in Tower park has been the subject of comment during the past few weeks. Many think a new flag should replace it. Well, Antioch has a new flag, but it is used only on Sundays and holidays; according to Marshal Bill Thiemann. The new flag was presented to the village some weeks ago by Morris Pickus.

Speaking of the want-ads—many carry interesting stories behind them. Eugene Cox, long a resident and business man of Charnel Lake, this week offers his popular place known as Cox's Corners for lease. Originally his store was located on the old Charnel Lake road down near the lake, where he catered to vacationists and supplied the community with groceries. When highway 173 was paved he moved to the present location and installed a bar when the prohibition era ended in 1933. Gene confesses to be the age of 74, or almost, and says he wants to take it easy now. He should. Incidentally, Gene has done well in his business, and it's a fine spot for some ambitious person who will attend to the business as well as Gene has these many years.

There will be a celestial blackout next Tuesday night, beginning about 9:15 and lasting until shortly after midnight, when a total eclipse of the moon occurs, visible in the greater part of the United States.

Most every day a new process for making synthetic rubber is announced.

Now if only the ragweed and thistles which grow in such abundance along the highways and byways could be utilized in that capacity, we could all roll merrily along with four new tires.

With gas rationing in operation in the east, we wonder do the Easterners employ all those gas savers which were so widely advertised a few years ago. You remember the carburetor that saved 25 per cent, the special pistons that saved so much, the distributor that saved some more and a few other gadgets, until the car owner had to stop and drain some gas out every 100 miles. Our neighbor's pet gas saver is to turn off the motor and coast down some of the longer hills.

Authorities are asking that people observe meatless days. Well, that's all right with us. We are willing to do without liver—lots of it. We'll leave it for people who need it—and they do say it is an excellent builder-upper of red corpuscles.

Among the many blood donors at Libertyville last week were Mr. and Mrs. Richard J. Lyons—I pint Grade A each.

No doubt you've often noticed the bread man in a store picking up the unsold bread and cake and carrying it out to his truck, and maybe you've sometimes wondered what he did with it. Well, we've found out. We know of a farmer not too far from here who buys it by the ton to feed to his live stock. Milk fed chicken? Or cake fed beef? Some of it all neatly wrapped in cellophane and moist and good looking. 'Stoo' had some of Germany's hungry victims can't have access to it.

(Here's another poetic effort by Tom J. Miller. How do you like it?)

TOMORROW
When the road is steep and rocky
And the going's pretty tough,
When we give it all we've got
And still it isn't quite enough—

When the thoughtless acts of others
Get beneath our tender skin,
And most everything that happens
Aggravates the mood we're in—

We like to blame somebody else
For all the grief and woe,
We like to think we're blameless
But in our hearts we know—

That all too often it's our fault
When everything looks black,
But let's keep right on trying
And look forward—never back.

For after all, remember life
Must bring both joy and sorrow,
So if we fail today, let's say,
'I'll try again—tomorrow.'

T. J. Miller.

Report Excellent Illinois Corn Crop

Every indication points to an excellent Illinois corn crop this year, and the prospective yield is estimated at 47.5 bushels an acre in the current report of State and Federal departments of agriculture. Nine-tenths of Illinois corn is the hybrid type. An Illinois soybean crop of about 63,000,000 bushels is looked for. Last year the crop was 49,000,000 bushels.

WEEKLY NEWS ANALYSIS

Japs' Asiatic Time-Table Delayed by U. S. Offensive in Southwest Pacific; Yank Air Force Now Active in Europe; Russians Continue Caucasus Retreat

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)
Released by Western Newspaper Union.

SOLOMON ISLANDS: Marines Landed

The marines had landed. The Jap-infested Solomon Islands northeast of Australia were the site. After seven days of savage fighting, the marines were reported consolidating their positions on three key islands—Tulagi, Florida and Guadalcanal. Key prize on Tulagi, aside from its

VICE ADMIRAL GHORMLEY
He unleashed Devil Dogs.

harbor, was an airfield in the mountains, said to be the best in that war sector.

The effectiveness of the entire offensive was indicated by a communiqué from General MacArthur's headquarters in Australia which reported that the marines had captured a Japanese airfield on Guadalcanal island.

Intent on India and massing strength along the Siberian frontier, the Japanese command did not like the idea of an American offensive in the Solomons. An offensive it was, however, with the intent of regaining lost territory, cutting a wedge into Japanese supply lines and carrying the fight to the enemy.

The marines were only a part of the attacking task force under command of Vice Admiral Robert L. Ghormley. They performed the necessary landing and cross-country fighting operations. But back of them was stout naval power and strong air forces which gave the Yankees a superiority the Japs had hitherto held.

U. S. AIR FORCE: Active in Europe

The long-awaited entry of American fighting planes on a large scale into the European air war took place when U. S. fighting craft engaged in 31 operational sorties.

This baptism was regarded as a forerunner of the time when the sky above Germany would be filled with destruction-laden American planes.

In the initial operations, United States fighter squadrons flying in conjunction with Royal Air Force units made three flights over the French coast. Twenty other aerial missions were over the sea and eight were in interception sorties off the coast of England, according to a communiqué of the United States European headquarters.

Meanwhile the RAF's assaults on German industrial centers continued with another blistering attack on Mainz in which high explosives and incendiaries were again rained down. The effectiveness of the British air blitz was attested by Dr. Joseph Goebbels, German minister of propaganda, who admitted that Germany is suffering "painful wounds" from the RAF's summer offensive in an article for "Das Reich."

NAVY: Policy Board Reshaped

Two sea dogs grown gray in their country's service were added to the navy general board, when Secretary Frank Knox announced a reorganization of the committee. They were Admiral Arthur J. Heppner, retired, who was named chairman of the board, and Admiral Thomas C. Hart, retired, former commander-in-chief of the Asiatic fleet.

The board's functions are to advise the secretary on matters of policy. The navy said the board's duties and responsibilities had greatly increased since America's entry into the war and that the reorganization brought to the board officers well qualified to deal with vital problems arising out of the war.

FARM INCOME: Ahead of UCL

Increases in farm income have thus far been able to outrun rises in the cost of living, it was disclosed in a department of agriculture survey which showed that while net income of farm families averaged 46 per cent higher in 1941 and in the first three months of 1942 than in the comparable period in 1935-36, living costs had increased approximately one-third. Thus income outstripped the rise in living costs.

RUSSIA:

Cossacks No Barrier

The emphasis which Russian communiques placed on "saber-bearing Cossacks" suggested that the Red forces in the Caucasus lacked the heavy tank and armored equipment with which Nazi advances had previously been repelled.

The appearance of new geographic names in the communiques—Cherkess, Kotelnikovsk, Krasnodor and Maikop—indicated the rapidly with which the German steamroller had been able to flatten out Russian resistance and move on to new objectives.

There was no doubt that Russia needed a second front and knew it.

A Soviet communiqué acknowledged that one swift thrust had brought the Nazis to Mineralnye Vody, only 140 miles as the crow flies from the oil wells of Grozny.

But things were not completely hopeless. While the Germans had seized some oil in the Maikop area of the Caucasus, the big prize was still out of their reach. Between them and Baku rose the barrier of the Caucasus mountains. Moreover, Marshal Timoshenko's forces were contesting every mile of advance stubbornly.

In an area north of the Caucasus the Russian position was grave, for Stalingrad, industrial city of the Volga, was menaced by a Nazi pincer movement from the Kletskaya area on the north and the Kotelnikovsk sector in the south.

INDIA:

Gandhi Spins

As Mohandas K. Gandhi worked at his spinning wheel in his sumptuous prison in the Aga Khan's palace, the harvest of his passive resistance campaign against the British was a series of bloody riots that spread to the far corners of India.

Madras, heart of India's war industries, populous Bombay, Wardha in the central provinces and Madurai in the far south had been the scenes of outbreaks, despite official threats of death and flogging for all who took part in the revolution. That the British had the situation well in hand was indicated by the fact that the disorders were sporadic and confined to big cities, whereas the countryside was virtually unaffected.

Meanwhile in Washington, the state department made it clear that American military forces in India had been ordered to "exercise scrupulous care to avoid the slightest participation in India's internal political problems." A statement explained that "The sole purpose of the American forces in India is to prosecute war of the United Nations against the Axis powers."

PRIMARIES:

Triumphant Fish

As political wisecracks examined the results of primary elections in five states, one conclusion emerged. Isolationism was apparently fading.

HAMILTON FISH
... prewar issues were sunk.

out of the picture as a prime political issue.

Outstanding example of this trend was the result in President Roosevelt's home bailiwick, Dutchess county, New York, where Congressman Hamilton Fish, prewar critic of the President's foreign policy, won reappointment by a three-to-one ratio. Informed of his success, Fish said: "Prewar issues were sunk at Pearl Harbor."

While results appeared contradictory in other states, the trend seemed to be running in this direction. Although Democratic voters defeated two prewar opponents of the administration's foreign policy in other states, these defeats were attributed by most observers to local dissatisfaction rather than emphasis on national issues. The defeated candidates in this case were Representatives Martin Sweeney of Ohio and Harry B. Collier of Nebraska. Both were veterans in point of service in the House.

ALEUTIANS:

Japs Pay Dearly

Japan was paying a high price for the occupation of three western Aleutian islands. That was evident when a navy communiqué disclosed that 21 Jap ships had been sunk or damaged, an undetermined number of airplanes lost and important shore installations had been blasted since the invasion was first undertaken.

Latest exploit was a surprise attack by an American task force on Kiska harbor. Caught unawares, the Japs replied to the first American shells with anti-aircraft fire. In the raid, the navy said, shore batteries were silenced by cruisers and destroyers, fires started in the enemy camp area, a cargo ship apparently sunk and "the only resistance encountered was from air-attack."

Kiska is the Japs' main base in the Aleutians, although the Nipponese have also occupied Attu and Agattu, at the tip of the island chain.

WAR SITUATION:

Realism Required

Examining the war situation with cold realism, Senator Millard E. Tydings, ranking majority member of the senate naval affairs committee, warned that a United Nations victory cannot be expected before 1944 at the earliest. And, added the Maryland senator, the sooner the American people realize what lies ahead, the better off the United States will be.

"It ought to be perfectly obvious to any one that, barring some wholly unforeseen and unpredictable event," he said, in a radio broadcast, "there is not a chance for this war ending in 1942, and little chance for it to end before 1944 at the earliest, unless, of course, the United Nations are willing to submit to a Hitler-dictated peace."

Senator Tydings said it is useless to hope for a revolt of the German people against the Nazi or

"It is well to remember that the German people, whether Nazi or

SENATOR TYDINGS
... 1944 at the earliest.

non-Nazi, have been winning almost constantly ever since the war started. The sooner we realize the grimness and gigantic size of the task ahead, the sooner we will have a complete comprehension of the great demands needed in blood and treasure."

DOCTORS:

Getting Scarcer

Mounting needs for doctors in the armed services will make necessary a speeding up of medical training and an expansion of their practice by physicians remaining in civilian life.

This was made evident when statistics released in Washington showed that the country has 60,000 doctors, whereas needs for military and civilian functions will require 140,000 physicians. As a result of this situation, selective service headquarters said local boards had already begun to reclassify physicians who can be spared from civilian service.

For every 1,000,000 men in the army, approximately 6,000 doctors are required. The navy's needs are 6,500 physicians to every 1,000,000 men. President Roosevelt's recent statement that 4,000,000 men are already under arms indicates that 24,000 doctors are needed for military service. The army recently declared it will need 20,000 more by the end of the year.

MISCELLANY

LONDON: Soil that had not been cultivated for almost 2,000 years has been reclaimed for war-time food production in Britain, Lord Woolton, food minister, announced. This land, which is producing oats, wheat and potatoes, has not been in crop since the days the Romans moved through the district.

WASHINGTON: Senator Henry Cabot Lodge Jr. suggested that gasoline rationing for politicians be cut so that traveling salesmen in eastern states could have more motor fuel. Lodge asserted that the recent gasoline rationing order deprived salesmen of adequate gasoline and was "destroying their livelihood."

MEXICO CITY: The Mexican government gave the screen actor, Ramon Novarro, permission to enlist in the United States army without losing his Mexican citizenship, it was announced here.

A Tribute to Our Allies

"ON TO VICTORY"... America's greatest outdoor show will this year pay tribute to our allies in a spectacular extravaganza featuring stars of stage, screen and radio on a stage 200 feet long and 30 feet wide at the Wisconsin STATE FAIR... August 22-28.

TREVOR

Mrs. Mabel Schmidt and grandsons, Bob and Jimmy, Silver Lake, spent Sunday with Mrs. Champ Parham.

Miss Priscilla Allen spent several days with Donna Lee Rasch, Slades Corners, this past week.

Mr. and Mrs. Champ Parham were Union Grove callers Saturday.

Miss Hada Ellinger spent Wednesday at Madison.

Mr. and Mrs. Richard Corrin and daughter, Elizabeth, spent Tuesday with Mrs. Corrin's mother, Mrs. Emma Almer, and aunt, Clara Lowe, of Chicago, at Paddocks Lake, where they rented a cottage for a week.

Mr. and Mrs. William Gallant, Salem, were Wednesday callers at the home of their daughter, Mrs. Lee Willard.

Mr. and Mrs. Vernon Weinholz moved Wednesday from the Nellie Ranyard home to Camp Lake.

Mrs. H. J. Beck and daughters, Ingar and Betty May, and Mr. and Mrs. E. Larsen Racine were Wednesday callers at the Alford Dahl home.

Miss Elaine Allen returned home from Burlington where she had been employed for the past two months.

Mr. and Mrs. Charles Oetting accompanied Mr. and Mrs. Zarnstorff and Mrs. Evelyn Newman, Richmond, to Pettiberry Springs where they attended a ball game on Sunday.

Mrs. Glenn Pacey, Jefferson, spent the day Monday with her mother, Mrs. Jessie Allen, and sisters, Elaine and Priscilla.

Mrs. Charles Oetting accompanied Mrs. Paul Gartin of Wilmet to Kenosha Friday.

Mrs. Laura Oetting and son, Herman, Berwyn, and Mr. and Mrs. George Oetting and children, Riverside, Mr. and Mrs. John Bauer, Chicago, were Saturday visitors at the Charles Oetting home.

Ed Penney, Grayslake, called on Trevor friend Sunday.

Mr. and Mrs. Peter Schumacher and daughter, Lucille, Melrose Park, and Nick Schumacher, Racine, were Sunday visitors of Mrs. Ouida Schumacher.

Mr. and Mrs. Eddie Treas, daughters, Shirley and Ruth, Mr. and Mrs. Frederick Schaper and daughter, Judith Lynn, Hinsdale, visited their uncle and aunt, Mr. and Mrs. A. J. Baethle, Sunday afternoon.

Mr. and Mrs. Roger Burch, Chicago, called at the Charles Oetting home Sunday evening.

Mr. and Mrs. Henry Prange and son, Charles, were Sunday visitors of the former's sister, Mrs. Ann Bobben and family, at Russell, Ill.

Sunday visitors at the Joe Scler home were Mr. and Mrs. Nick Scler, Milwaukee, Mr. and Mrs. Lawrence Scler and children, Rox River.

Robert Richards, Ft. Sheridan, spent over the week-end with his parents, Mr. and Mrs. Albert Richards.

The Louis Holdorf family has moved from the Charles Curtis home to Antioch.

Mr. and Mrs. Clarence Brooks were Trevor callers Monday.

Donald McMiller, Stevens Point, has been taking the second trick at Trevor station during the absence of Clarence Brooks, who has a two weeks' vacation.

Vegetable Insect Control

Is Not a Difficult Task

Follow a few simple rules and control of vegetable insects is not difficult.

A duster may be obtained for a dollar up, but one may be made at home with a tin can, a stick and a piece of cheese cloth. Ask the county extension agents how it's done. Next, have ready a supply of insecticides for use at the first sign of insect injury. These are cryolite for control of bean beetles, cucumber beetles, cabbage worms and other insects which feed upon the fruit and foliage of the plants; rotenone and sulphur to control tomato fruit worm, flea beetles, plant lice and leaf hoppers; and concentrated pyrethrum dust for squash bugs, stink bugs, and harlequin cabbage bugs. Watch the garden for the first sign of injury and dust both sides of leaves.

Apply poison bait late in the afternoon for control of cut worms, grasshoppers and adult wingless May beetle, or June bug. Poison bait also will control mole crickets which frequent sandy soils.

A bait made of cryolite, flesh-chopped carrots or turnips and wheat bran will control the adult weevil.

Agricultural Notes

Adequate curing of the hay crop reduces the danger of a barn fire.

Government purchases now take four-tenths of all pork and seven-tenths of all lard produced in federally inspected packing plants.

Last year's shoe production figures smashed all past records, and came within 7,000,000 pairs of the 500,000,000 mark, with an even greater output scheduled for 1942.

Nazis Grab 4 1/2 Billion Yearly

Drain on Occupied Europe Computed in Report for Foreign Policy Group.

WASHINGTON.—Compared with the \$4,500,000,000 that the Nazis now exact annually from occupied Europe, "the \$500,000,000 which Germany was finally asked to pay as reparation under the Young plan is a drop in the bucket," declares a survey of the economic aspects of German military conquests published by the Foreign Policy Group.

The survey was prepared by Ernest Hedger, economic analyst of the association's research staff.

Military conquest of virtually the whole continent of Europe in little more than two years, it declares, "has been accompanied not only by wholesale confiscation of everything of immediate use to the German war machine, but also by the application of an entirely new system of invisible and permanent looting."

To Finance Purchases.

"By imposing so-called occupation costs and exacting other financial tribute," it continues, "Germany has been able, while keeping the appearance of legality, to oblige the vanquished nations to finance its purchases, thus succeeding to a very large extent in saddling the costs of its war on them."

"In fact, the material wealth which Nazi Germany has accumulated in the countries occupied during the last three years has already paid for several years of war preparation."

"The renewable contributions extorted from the conquered territories can be conservatively estimated at about 15 billion reichsmarks a year."

"Against a background of total German civilian expenditure of 38 billion reichsmarks, this means that if Germany could not draw on the resources of the occupied countries the populations of the 'old Reich' would have to substantially curtail their standard of living or seriously reduce military expenditures."

"The foremost consequence of German exploitation," Mr. Hedger asserts, "is a threatened large-scale inflation in almost all European countries. Under pressure, all central banks of the occupied countries have been compelled to put into circulation large amounts of local paper notes with which the German authorities have deprived, and are still depriving, the people of their belongings in a perfectly 'legal' way."

Notes Drastic Measures.

"An inflation of the spectacular kind, which brought the American dollar to a value of 4,200 billion marks in Germany in November, 1923, has been avoided to this day only because severe rationing and price control of goods of all kinds have been introduced in the occupied countries simultaneously with reparation costs. Without such drastic measures, prices would have soared to astronomical heights."

"As living conditions slowly deteriorate all over Europe," the survey said, "unrest is bound to grow. In spite of German terror methods of government, the people are becoming increasingly outspoken in their resentment of problematic reparation and are trying to slow down deliveries of foodstuffs and raw materials to Germany."

"The longer the war lasts the less they will believe in the possibility of a German victory. Presently the last worker and the last peasant in occupied Europe will realize that it is useless to produce goods for a market in which he can find almost nothing to buy in exchange for his sweat and tears, and will slow down his work."

"Such passive resistance, the only kind possible so long as the conquerors and their henchmen disposed of all weapons, will call for larger police forces to control the fields and factories and will increase Germany's already great difficulties in ruling the conquered countries of Europe."

Pepper Shaker Collector

Passes Out Some Data

ALVA, OKLA.—How long have salt and pepper shakers been in use? Miss Lillian Dyer, former Alva high school principal, says they date back 150 years.

Miss Dyer is a collector of salt and pepper shakers. She has 325 sets of all sizes and descriptions from eight foreign countries and 42 of the 48 United States.

In her study of shakers, she learned they were used generally shortly after the Revolutionary war. Prior to that, cut glass pieces known as "dips" were used. Today "dips" again are becoming popular, she says.

Colonels Want a Drink?

Must Ask Their Parents!

SAN JUAN, PUERTO RICO.—Teen-age officers of the United States army air force take a lot of kidding from their older comrades-in-arms, as evidenced by the following notice appearing recently over the bar in the Officers' club:

"Positively no alcoholic beverages will be sold to air corps lieutenant colonels under 21 unless accompanied by their parents."

Pail Saves Life of

Boy in Long Fall

NEW YORK.—A neighbor's pail saved the life of four-year-old Robert Reed.

While his mother was asleep, Robert went to the roof of the apartment building. Attempting to cross to a nearby building, he fell five stories to an alley.

A pail hanging outside a first floor window broke his fall.

Mazie Quits Job; Bums on Own Now

Famous Bowery Character Plans to Write Book.

NEW YORK.—The bums of the Bowery have lost their platinum blonde shepherdess, Mazie Phillips of the Venice theater, who used to demand (and pay for) bolts for her customers before she'd let them in. Mazie is writing a book and she's quit her job because, she says, "I wanna do good."

The evangelical tone of her cigarette-smoking voice would break the heart of any of the down-and-outers to whom she once barked: "The world is all smitiched up, but I'm not goin' to have you bums lousin' up the theater. Here's a quarter, Go take a bath and come back."

But she insists that "all the money I make on the book is goin' on them poor bums. I ain't had a chance to tell them yet."

And her new spirit hasn't carried her to the point of believing in organized charity—yet.

"I'm not out to knock missions or such," she said, in her apartment under the shadow of the Brooklyn bridge. "But you ain't goin' to get a bum in a mission if there's a gutter to sleep in."

Her book is based on the experience of 30 years of brisk friendship with drifters, and she intends to give her observations on dirt, among other things.

"Dirt's healthy," says Mazie. "That's why them old bums live so long."

Survey Shows Professor Is Not Absent-Minded

NEW ORLEANS.—The old saw about the absent-minded professor is out of date.

Dr. Logan Wilson, Tulane sociology professor who has just completed a study of the typical professor, says he is neither absent-minded, old fashioned nor crochety. He's a relatively alert family man with one or two children.

He is more self-critical than most folks and leans over backwards to avoid conformance to a stereotype. Nor is he particularly inclined toward political or social radicalism. Dr. Wilson found in opposition to another popular belief.

The typical professor has a Ph.D., teaches English and has taught in his present post from 6 to 10 years after teaching first in another institution.

If he engages in research work besides teaching, he not only stands higher in popular esteem but also has a brighter pecuniary future. Few universities, declares Dr. Wilson, have a promotional policy based solely on teaching.

Horse Returns, Pulling

Cart Loaded With Grief

COLUMBUS.—The silent art of pulling milk wagons is a hard one to revive.

Horses are not difficult to find, according to George L. Harper, divisional engineer for the Borden Dairy company, but teaching them to work between the shafts in city traffic is a patience-wracking process.

After you teach them the old tricks, it's a problem to find wagons—and if you get the wagons you have to manufacture your own gear.

Horse blankets, harness and nosebags are nearly as hard to obtain as the shoes. Antique shops have been ransacked for old style oil lanterns for the early-morning milk rounds.

The dairy has assembled a strange assortment of odds and ends from junkyards and warehouses. The company is manufacturing wagons by hand, using scrapped auto wheels, hand-made shafts and brakes forged in company shops.

Close-Up Movies of War Thrill Moscow Audience

MOSCOW.—The first newsreel pictures from the Kharkov front, shown in Moscow, are probably the finest action pictures the war has yet produced. You see the laying of a barrage before the offensive and two Red army anti-tank riflemen waiting tensely for the approach of German tanks. You see one man firing and another loading a tank.

Russian tanks, with the words, "For the Motherland" painted on their turrets, are shown crashing into villages of pulverized cottages and Russian assault troops are seen leaping through window frames to rout the enemy from their fortresses. The whole scene occurs in clouds of dust, flying rubber and splashed earth.

The camera takes you as near to real battle as you will ever get without joining the army and you sense the thrilling tenseness of the Kharkov offensive.

HICKORY

Mr. and Mrs. Curtis Wells, Miss Lillian Wells and Richard and Warren, also Mrs. Emil Hallwas, visited the Kenneth Weaver family at Union Grove Sunday afternoon.

Robert Bonner and friend from Kansasville, Wis., visited Robert White Sunday afternoon.

Mort Savage and Clarence Webb of Kenosha spent last week at Eagle River, Wis.

Mr. and Mrs. Earl Webb and Mrs. Minnie Savage from Waukegan, visited at the A. T. Savage home Sunday afternoon.

Mr. and Mrs. Harold Wilton of Bristol were supper guests at the Keith Bolton home Sunday.

Mr. and Mrs. Ralph Fields of Antioch visited Mr. and Mrs. E. E. Fields Sunday afternoon.

Mr. and Mrs. Dayton Marrs and family from Harvard were Sunday dinner guests at the Robert McCann home. In the evening the Marrs family visited the George White family.

Mr. and Mrs. Joe White of Harvard were guests at the Fox home over Saturday. They attended the funeral of Nels Nielsen Saturday afternoon.

Mrs. Mike Leable and daughter, Jeanette from Wadsworth visited the Carney home Friday evening.

Miss Ella Mae Edwards returned home Sunday from a week's vacation with her cousins, Lorraine and Lucille O'Hare, in Waukegan.

Mr. and Mrs. George Olsen of Waukegan visited the Max Irving home Sunday evening.

Mrs. O. L. Hollenbeck of Millburn and Mrs. Andrew Grant of Edson Park called on Mrs. Will Thompson Saturday afternoon.

Mr. and Mrs. Frank Kennedy of Waukegan visited Mr. and Mrs. Harrie Tillotson Saturday afternoon and evening.

Mr. and Mrs. Glenn Sparrow of Zion were callers at the Earl Crawford home Wednesday evening.

Mr. and Mrs. Joseph Pap of Milwaukee were dinner guests at the Carney Bros. home on Sunday, Aug. 9.

Mr. and Mrs. Ward Edwards and son, Richard, from Joliet spent several days of last week at the Bert Edwards home.

George R. Thompson, formerly of Zion but now at Great Lakes, is enjoying a nine days furlough. He and Mr. and Mrs. Philip Gould and Miss Vivian from Grayslake visited the Will Thompson home Sunday evening.

Sergeant James Neilsen of Camp Shelby, Miss., arrived home Thursday, Aug. 13, on several days furlough. Miss Edna Pedersen visited Tuesday and Wednesday of this week with her friend, Rosalie Sibley, at Antioch.

The steel that goes into a single sewing machine will make a high explosive shell for a 75-mm. field howitzer and the steel in two large outdoor motors would make a sub-machine gun.

Slowly

States as great engines move slowly.—Francis Bacon.

The Black River

The Rio Negro or Black River is an excellent name for this river whose waters are as black as coal. It is a tributary of the Amazon and is more than a thousand miles long. The Amazon is yellow and it is a strange sight to see this mighty river with a black streak running through it. The difference in color comes from the soil through which each of these two rivers flows.

Millions in Pelts

Headquarters of the giant Canadian fur trade is in the days of Radisson and Des Groseilliers, Montreal, Province of Quebec, is the clearing center for millions of dollars' worth of pelts every year.

Your electric cords are pre

MAKE THEM LAST!

Electric cords are made mostly of rubber and copper—two materials that are much in demand these days! Check the electric cords in your home, using this guide. Make them last just as long as they were designed to last!

HOW TO MAKE CORDS LAST LONGER

There are three things that commonly cause your cords to wear out:

1. FRICTION. When disconnecting, don't yank on the cord—take hold of the plug. Never let a cord become twisted or knotted. When not in use, hang it over two widely separated hooks, so there will be no sharp bend. Never run cords under carpets, or nail them to the wall or floor. Be sure they are away from moving parts of appliances:

2. HEAT. Keep cords away from radiators or steam pipes: Even direct sunlight will shorten the life of the rubber in a cord:

3. MOISTURE. Don't let electric cords get wet. Even rubber-covered extensions will in time absorb water:

WHERE TO LOOK FOR DAMAGED CORDS

Appliance cords wear most quickly at the points where the cord enters the appliance and the plug. Check the cords on your lamp bases, electric fans, irons and other frequently moved appliances.

WHAT TO DO ABOUT DAMAGED CORDS

Never try to push worn cords out of sight—they should be fixed immediately. Unless you are sure of your repairing skill, call an electrician: He can often re-use most of the old cord, and you know the job is done right!

Within a few weeks after scrap steel is placed in a furnace, to be melted down into new steel, it may help to win a battle in the war, it was stated yesterday at the headquarters of the local Scrap Salvage Campaign.

STATE OF ILLINOIS

DWIGHT H. GREEN, GOVERNOR

DEPARTMENT OF PUBLIC

WORKS AND BUILDINGS

DIVISION OF WATERWAYS

Sealed proposals for furnishing all labor, material, services and equipment, and doing all work necessary for dredging and removing obstructions and doing appurtenant work in a shoal area in Petite Lake, for dredging and removing obstructions in a shoal area in Pistakee Lake in the Village of Fox Lake, and for deepening and widening an existing channel connecting Bluff Lake with Lake Marie in the Fox Chain of Lakes, Lake County, Illinois, will be received by the State of Illinois, Department of Public Works and Buildings, Division of Waterways, in Room 1424, 188 West Randolph Street, Chicago, Ill., not later than 10:00 A. M., August 26, 1942, and then publicly opened and read.

These projects consist of dredging, excavating and disposing of approximately 30,000 cubic yards of material.

Plans and documents may be obtained without charge from the Division of Waterways, 201 West Monroe Street, Springfield, Illinois, and from the Chicago District Office, Division of Waterways, Room 1424, 188 West Randolph Street, Chicago, Illinois.

Award of this contract is contingent upon the acquisition of necessary right-of-way from adjacent affected property owners.

Each proposal shall be accompanied by a Bank Cashier's Check or Bank Draft in the amount of at least ten percent (10%) of the total amount of the bid.

The State reserves the right to reject any and all bids.

THOMAS B. CASEY
Acting Chief Engineer.

NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN by the Board of Education of District No. 34 in the County of Lake, State of Illinois, that a tentative budget and appropriation ordinance for said school district for the fiscal year beginning July 1, 1942, will be on file and conveniently available to public inspection at the Antioch Grade school from and after one o'clock p. m. Thursday, August 20, 1942.

Notice is further given hereby that a public hearing on said budget and appropriation ordinance will be held at 8:30 o'clock p. m. Wednesday, Sept. 2, 1942, at the Antioch Grade school.

Dated this 18th day of August, 1942.

Board of Education of School District No. 34 in the County of Lake, State of Illinois.

MYRTLE KLASS,
Secretary.

Japan Guards Secrets

By Drowning Chinese

CHUNGKING.—The conservative newspaper Ta Kung Pao reported that the Japanese have drowned many Chinese workers, perhaps thousands, in the Amur river to guard the secrets of fortifications which they had built along the Manchukuo-Russian border. Bodies have been seen floating down the river between the two countries with hands and feet bound tightly.

Most of the workers were seized in Hopei and Shantung provinces and taken to Manchukuo to construct the fortifications which, the newspaper said, were mostly in vast virgin forests close to the Manchukuo side of the Amur.

Has New Type of Glass

That Withstands Bomb

CAPETOWN, SOUTH AFRICA.—Two members of the Capetown university staff said today they had discovered an inexpensive method of making ordinary window glass withstand the explosion of a 500-pound bomb 70 feet away.

Even if the glass were shattered, the danger of splinters flying was greatly reduced, they said.

The men who made the discovery—George Stewart, a lecturer on civil engineering, and F. Walker, a professor of geology—conducted their experiments secretly, with government co-operation. They said the process would be made available to the United Nations.

Italian Officers Sell

False Sick Leave to Men

BERNE, SWITZERLAND.—Italian newspapers reported that nine Italian medical officers, including a major and five captains, have been sentenced by a court-martial at Bari, southern Italy, to terms of solitary confinement ranging from 7 to 15 years for selling "certificates of convalescence" to healthy soldiers.

Il Corriere Della Sera of Milan said 23 soldiers also were sentenced to six to seven years of military confinement and 12 civilians were given 4 to 14 year prison terms in connection with the certificates.

God's
Nature is the art of God.—Sir Thomas Browne.

Free State Road Deaths Grow
Road accidents in the Irish Free State last year caused 202 deaths, an increase of 10 over 1931, and the greatest number ever recorded in any 12 months. According to statistics just made public the greatest number of victims were between 20 and 30 years of age. The youngest was 1 1/2 years and the oldest 82. Those injured numbered 2,934, which is also a high record.

Picnic Lunches Healthy
It is said that ants live to be ten years old; another argument in favor of hard work.

Not Too Much Paint
Home owners who are planning any outdoor painting during cold weather should bear in mind that a too heavy application of paint will result in a wrinkled surface.

Even though the surface may be dry when the paint is applied, cold or damp weather will retard drying. An addition of turpentine will reduce this tendency.

Weight Illusion
Under red light the average person will tend to judge weights as heavier. Under green and blue lights there is a tendency to judge them as being lighter. One manufacturer had certain boxes repainted green rather than black as he found that his employees were less conscious of the heavy burden of lifting and carrying the green boxes.
